Maxon Furniture Inc Introduces the New Cochair Seating Line

(June 11, 2007) Renton, WA – Maxon Furniture announced today the addition of its Cochair seating line, featuring two highly versatile side chairs – ideal for use as guest chairs in private offices or in meeting, training and lunch rooms.

“We are pleased to present this new, versatile line, which consists of guest chairs previously associated with other task chair lines,” said Maxon Product Manager Eric Kurtz. “The Cochair line gives dealers more effective tools to sell these universal side chairs in the traditional guest chair capacity, but also expands the marketability of the chairs to fit meeting, training, or lunch rooms needs.”

The Cochair-EL features soft arm pads and can be ordered with smooth rolling castors (hard wheels for carpets, soft wheels for hard floors) or bell-glides. The armless Cochair-KG works well in a variety of settings, including reception areas and other locales where seating-row chairs are needed.
