Maxon Furniture Adds Innovative Four-Step Guide to its Inspirations Program

(June 11, 2007) Renton, WA – Maxon Furniture Inc. today introduced its four-step *Guide to the Perfect Office*, a 40-page illustrated workbook that helps office furniture dealers, space planners and end users quickly and easily find the right solutions to their workspace planning challenges. The Guide complements Maxon Furniture's Inspirations Color Binder, a ground-breaking resource to help end users select fabrics, finishes and colors that best reflect their organizational image and office decor. The Guide and Color Binder are based on Maxon product offerings.

"Over 30 years experience has led to the development of this foolproof system," explained Maxon Marketing Manager Steve Gelb. "The program demystifies the space planning and color selection process to help buyers quickly and confidently develop a customized space plan that fits their needs and budget." Beginning June 19, 2007, an Inspirations Guide demonstration video will also be available to view online at maxonfurniture.com.

The Guide is divided into the following fully illustrated steps: Step 1 - Select a Workstation Typical, from 37 typical layouts; Step 2 – Add Design Details, to customize the workstation (e.g., panel types, worksurface shapes, storage, accessories); Step 3 – Select a Product Line, that best fits Steps 2 and 3; and Step 4 – Add Color (fabrics and finishes). While the Guide offers a general overview of the Maxon Inspirations color selection system, users can refer to the Inspirations Color Binder for actual fabric cards and color palettes options.

Maxon Inspirations Color Binder includes a wide variety of designer-selected color palettes using complementary color combinations of panel fabrics, laminates, seating fabrics, and paints to easily match any office interior and business image. The Binder also includes a select variety of fabrics and finishes to customize a pre-selected color palette or to create a color palette from scratch. Additional custom options are also included.

Maxon Inspirations makes office workspace planning as easy as 1-2-3 – and 4, for color!
